

# Advantages

1. High visibility, compact unit with robust construction. Designed and constructed as the 180C.
2. Unique and simple method of rotation using hydraulic cylinders.
3. Low maintenance unit.
4. 130° total rotation. Choice of left or right tip (left as standard).
5. Pre-set speed with controlled and gentle action.
6. Side arm fitted with adjustable box support and top arm fitted with moveable extension as standard, lifting eye and bracket to hold hydraulic pipes when not in use.

## Box Rotator

Ideal entry level Box Rotator, popular for logs as well as free flowing root crop handling.

Constructed as per the 180C but with fewer component parts, this Box Rotator has most of the same features and rotates 130 degrees.

Bolt-on bracketing to suit our forklift/loader included

A Tip For The Future

## Specifications

**Capacity:** 2000 kg

**Weight:** 540 kg

**Carriage:** CLASS 2 - size 1220mm x 407mm - one piece profile in 30mm grade 50D steel plate and machined to take class 2 certified pallet forks.

**Forks:** Certified 100 x 40 x 1200 class 2B.

**Back Plate:** 30mm Grade 50D steel plate.

**Rotation:** Achieved using 1 - double acting hydraulic cylinder and associated fittings, pivoting on a heavy duty centre shaft fitted with PB1 (Bronze) full length bushing

**Bracketing:** Bolt-on to fit all applications

## 130C <sup>CE</sup> Options

- Lower top arm for shorter/narrower boxes.

130 degrees rotation using a single hydraulic cylinder
