

Advantages

1. 1 Tonne capacity unit to fit counter balance trucks (3 tonne and over) or telescopic handlers.
2. Fits standard 6' x 4' boxes at varying heights
3. Hydraulic clamping lid with "hopper style" discharge.
4. Creates forward reach for counter balance trucks.
5. 140° Reverse Tip allows operator total visibility throughout operation.
6. Requires only 1 hydraulic service.
7. Standard Agriweld bolt-on bracketing system allows unit to fit multiple forklifts.
8. No side arms enables picking out of store or stack.
9. Ideal for maintaining "chits" on seed potatoes.

The Revolution €

Reverse Tip Box Rotator

Superior innovation through understanding and knowledge has led to the design of the only REVERSE TIP Box Rotator available.

With its large discharge sock the Reverse Tip Box Rotator prevents damage to crops and is ideal for filling planters, bulkers and grading lines.

Winner of LAMMA double award 2009 for Best New Product or Innovation.

Total visibility through reverse tipping cycle enables full operator control

Standard bolt-on bracketing system to fit telehandlers

Specifications

Operating Capacity: Standard 1 tonne boxes on minimum 3 tonne capacity fork lift / loader.

Weight: 930 kg

Forks: Certified pallet forks used as standard - 100 x 40 x 1200 class 2B with height adjustment.

Rotation: 140° reverse rotation achieved using 2 double acting hydraulic cylinders .

Lid: Heavy duty clamping lid with hopper style discharge. Height adjustable. All operation achieved using a single hydraulic service. No electrics required

Bracketing: Bolt-on bracketing included to fit telehandler/yard truck of 3 tonne capacity and over.
